SKILLS

- **Languages:** C++, C#, JavaScript, Python, SQL
- **Frameworks:** GSAP, Bootstrap, NodeJS, ReactJS
- **Databases:** PostgreSQL, MongoDB, Supabase, SQL Server
- **Soft Skills:** Docker, Git, GitHub Actions, Firebase, Razorpay API, OpenAI API

EXPERIENCE & TRAINING

- **Capgemini - .NET Full Stack Training Program** Dec 2025 - Present
Software Engineer
 - **About:** Successfully completed Capgemini's .NET Full Stack training program and secured a Software Engineer position. Gained hands-on experience in enterprise application development, software engineering best practices, and full-stack technologies. Developed the CapFin Loan Management System featuring secure authentication, role-based access control, document workflows, administrative dashboards, and real-time notifications.
 - **Tech stacks used:** C#, .NET, ASP.NET Core, React.js, SQL Server, JWT Authentication, SignalR
- **Outlier AI - LLM Training & Data Labeling Company** Nov 2024 - Jan 2025
Freelancer
 - **About:** Worked with Outlier AI to evaluate and refine large language models by ranking responses, testing prompts, and providing feedback to improve accuracy, reasoning, and contextual understanding.
 - **Tech stacks used:** Python · Natural Language Processing (NLP) · Prompt Engineering
- **LinuxSocials - Data Structures & Algorithms Training** June 2024 - July 2024
Trainee
 - **About:** Completed structured training in DSA using C++, covering arrays, linked lists, trees, graphs, dynamic programming, and competitive problem-solving.
 - **Tech stacks used:** C++, Standard Template Library (STL), GitHub

PROJECTS

- **Online SQL Editor – Interactive SQL Learning Platform :** April 2025

-Developed a full-stack SQL learning platform featuring real-time PostgreSQL query execution, Monaco Editor integration, AI-powered hints, and LeetCode-style validation with hidden test cases.
-Designed 15 structured SQL assignments with automated evaluation, progress tracking, secure query execution, and sandboxed database interactions.

Tech: React.js, Node.js, Express.js, PostgreSQL, MongoDB, OpenAI API, Monaco Editor
- **CapFin Loan Management System :** Jan 2025

-Built an enterprise-style loan management platform during Capgemini's .NET Full Stack program, enabling loan applications, document uploads, status tracking, and administrative approval workflows.
-Implemented secure authentication, role-based access control, real-time notifications, and dashboard-driven management features.

Tech: C#, .NET, ASP.NET Core, React.js, SQL Server, SignalR, JWT Authentication
- **AI-Powered Online Code Editor :** Mar 2024

-Developed a browser-based coding platform supporting C++, Python, and JavaScript with real-time execution, cloud-based code storage, and AI-assisted code generation.
-Integrated secure authentication, Supabase database services, and Razorpay-powered token purchases to enable premium AI features.

Tech: React.js, Node.js, Express.js, Supabase, OpenAI API, Razorpay, Monaco Editor

CERTIFICATES

- Cloud Computing (Proctored Course) – NPTEL (Govt. of India)
- Decoding DevOps – From Basics to Advanced Projects with AI (Udemy)
- Server-Side JavaScript with Node.js – NIIT (Coursera)

ACHIEVEMENTS

- **Solved 400+ problems on LeetCode:**
Demonstrating strong proficiency in data structures and algorithms
- **Worked as a video editor and content manager for multiple top Indian content creators:**
producing engaging video content and managing YouTube channels to boost reach and retention
- **Ex-Founder of InsaneXProductions:**
a creative agency delivering professional video editing and content management services to top-tier Indian YouTubers and influencers

EDUCATION

- | | |
|---|--|
| • Lovely Professional University
<i>Bachelor of Technology - Computer Science and Engineering</i> | Punjab, India
<i>August 2022 – May 2026</i> |
| • Jawaharlal Nehru Memorial School
<i>Intermediate</i> | Dhanbad, Jharkhand
<i>April 2020 - March 2022</i> |
| • De Nobili School
<i>Matriculation</i> | Maithon, Dhanbad
<i>April 2018 - March 2020</i> |
